

Shorter Term Volunteer Return on Investment (ROI) Calculator

Do the calculator for volunteer positions designed for three months or less to estimate the time that will be returned on the investment.

Investment

Staff time to:	Time in Hours
Recruit _____ number of volunteers	
Onboard the targeted number of volunteers	
Train the targeted number of volunteers	
Supervise and support a targeted number of volunteers	
Other related staff time	
TOTAL	0

List other costs to consider such as background checks and project costs:

Return

			Number of volunteers		
Number of hrs. expect each volunteer will give:		x		=	0

List any other benefits of volunteers such as outreach:

ROI

Return divided Investment = #DIV/0!

Analysis:

Set an expected ROI for a viable volunteer position. Question ROI of less than 2:1, unless there are other factors to consider such as outreach benefits of the volunteers in the position.
